IT'S TIME TO...

Own Your Tech

Take back control of your digital life today

Are you sick of...
Paying subscription fees up the wazoo?
Not knowing what happens to your data?
Being at the mercy of the provider?

Then self-hosting might be for you!
Choose where your data lives, own it without question and do with it as you please.

NO subscriptions, ads, tracking, lock-ins or ANY nasty stuff...
And you support community-funded open-source projects that are FREE for the public!

NO more Subscriptions!

What can I self-host?

- Private cloud: file/photo sharing & backup
- Media library: audio, video
- Documentation / knowledge-bases
- Websites / Blogs powered via CMS
- Accounting, CRMs, PDF tools
- Social: media, networks, forums
and more... just ask us!

Why us?

- Melbourne-based
- Transparent pricing
- Flexible options: from BYO hardware to renting a professional Aussie server
- No brand loyalty: whatever works for you / business
- No gatekeeping: admin upskill & handover
